

Rules for horse shoeing

Instructions for a specially arranged place that does NOT require a permit for fire hazard work.

Stable name:	Phone:
Address:	E-mail:
Map coordinates:	Issued by:
Owner/arranger:	Date:

At this stable, the farrier may park his car closer than 15 metres and carry out fire hazard work under these conditions:

- The court butcher's car may be parked at this location:

- The court butcher has a certificate for fire hazard work.
- The butcher's car is parked at least 2 metres from the front of the stable.
- At the farrier's car and within a radius of 5 metres from the workplace, combustible materials such as litter, combustible deposits or vegetation are removed.
- Work that causes sparks is carried out in such a way that sparks are directed away from the stall.
- In addition to the fire extinguisher in the farrier's car, there is another fire extinguisher readily available.
- Earth leakage switches must be provided for electricity connected to the car.
- If nothing unusual has occurred, no aftercare is required

If the above can NOT be met, the farrier must obtain a permit issued by the permit manager for fire hazard work. Contact:
